## I N T R O D U C T I O N

Committee personnel selections were made by President Rex Amack following a request for nominations from member agencies and organizations and for volunteer assignment by Associate Members. President Amack developed a draft list of assignments from nominations received before the September 2008 meeting in Saratoga Springs, NY. In making selections, Mr. Amack considered geographical representation along with committee size and other factors.

To assure consideration of all viewpoints, all members of each committee are encouraged to participate fully in the meetings and activities of the committees, except, as provided in the bylaws, when a vote by official governmental member representatives is requested.

The affiliation and email addresses of all committee personnel are shown, along with telephone and fax numbers of each Chair. An abbreviation key is shown below.

The Washington staff office will advise the Chairs of committee assignments and mailing addresses of committee members.

**Note to Committee Chairs: Committee Chairs are reminded that it is their responsibility to review and revise charges if needed and to forward new charges to President Amack for approval. Chairs are urged to contact committee members and, unless it has already been done, to initiate committee work as soon as possible.**
