Aiming to Save

What Did You Learn?

1. What do birds need to survive?
2. What are some of the challenges that endangered and threatened species of birds face every day?
3. Name one endangered and one threatened species of bird. Are any of these birds found in your state or province?

Wanted: Your Feedback

1. How successful were participants in sinking the ball into the holes?
2. Did participants gain an understanding of the needs birds have to survive and the difficulty they have in meeting them?

Question for Reflection

Make a list of some of your daily activities. How do these activities impact the environment? Do any of these daily activities impact the survival of birds?
