

Puddle Wonders Data Sheet

Date: _____ Time: _____ Puddle Number: _____

Study Site Location: _____

Team Members: _____

I. Puddle Data: Sketch the puddle, record puddle measurements including units, and show calculations in the boxes below.

Sketch a Puddle:	Circumference:	Length:
	Radius:	Width:
	Area:	
	Depth:	
	Volume:	

What caused the puddle to form?

Other interesting observations and findings:

II. Wildlife Data: Note species name, signs of use, and how wildlife is using the puddle. Estimate the number of each species. Look for small organisms, birds, worms, mammals, insects, reptiles, and amphibians. If you're not sure what it is, sketch it!

Blank area for recording wildlife data and sketches.
