(3) PERIOD OF AVAILABILITY; APPORTIONMENT OF UNOBLIGATED AMOUNTS.—

(A) PERIOD OF AVAILABILITY.—For each fiscal year, the available amount under paragraph (1) shall remain available for obligation for use under that paragraph until the end of the subsequent fiscal year.

(B) APPORTIONMENT OF UNOBLIGATED AMOUNTS.—Not later than 60 days after the end of a fiscal year, the Secretary of the Interior shall apportion among the States any of the available amount under paragraph (1) that remains unobligated at the end of the fiscal year, on the same basis and in the same manner as other amounts made available under this Act are apportioned among the States under subsection (c) for the fiscal year.

(c)(1) The Secretary, after the distribution, transfer, use and deduction under subsection (b), and after deducting amounts used for activities under section 14(e), shall apportion 58.012 percent of the balance of each such annual appropriation among the several States in the following manner: 40 percent in the ratio which the area of each State including coastal and Great Lakes waters (as determined by the Secretary of the Interior) bears to the total area of all the States, and 60 percent in the ratio which the number of persons holding paid licenses to fish for sport or recreation in the State in the second fiscal year preceding the fiscal year for which such apportionment is made, as certified to said Secretary by the State fish and game departments, bears to the number of such persons in all the States. Such apportionments shall be adjusted equi-

tably so that no State shall receive less than 1 percent nor more than 5 percent of the total amount apportioned. Where the apportionment to any State under this section is less than \$4,500 annually, the Secretary of the Interior may allocate not more than \$4,500 of said appropriation to said State to carry out the purposes of this Act when said State certifies to the Secretary of the Interior that it has set aside not less than \$1,500 from its fish-and-game funds or has made, through its legislature, an appropriation in this amount for said purposes.

(2) The Secretary shall deduct from the amount to be apportioned under paragraph (1) the amounts used for grants under section 14(a).

(d) So much of any sum not allocated under the provisions of this section for any fiscal year is hereby authorized to be made available for expenditure to carry out the purposes of this Act until the close of the succeeding fiscal year. The term fiscal year as used in this section shall be a period of twelve consecutive months from October 1 through the succeeding September 30, except that the period for enumeration of persons holding licenses to fish shall be a State's fiscal or license year.

(e) EXPENSES FOR ADMINISTRATION OF CERTAIN PROGRAMS.—

(1) IN GENERAL.—For each fiscal year, of the amounts appropriated under section 3, the Secretary of the Interior shall use only funds authorized for use under paragraphs (1), (3), (4), and (5) of subsection (a) to pay the expenses for administration incurred in carrying out the provisions of law referred to in those paragraphs, respectively.

(2) MAXIMUM AMOUNT.—For each fiscal year, the Secretary of the Interior may use not more than \$900,000 in accordance with paragraph (1).

(f) TRANSFER OF CERTAIN FUNDS.—Amounts available under paragraphs (3) and (4) of subsection (a) that are unobligated by the Secretary of the Interior after 3 fiscal years shall be transferred to the Secretary of the department in which the Coast Guard is operating and shall be expended for State recreational boating safety programs under section 13107(a) of title 46, United States Code.

SEC. 5. [16 U.S.C. 777d] For each fiscal year beginning with the fiscal year ending June 30, 1951, the Secretary of the Interior shall certify, at the time at which a deduction or apportionment is made, to the Secretary of the Treasury, and to each State fish and game department, the sum which he has estimated to be deducted for administering this Act and the sum which he has apportioned to each State for such fiscal year.

SEC. 6. [16 U.S.C. 777e] (a) Any State desiring to avail itself of the benefits of this Act shall, by its State fish and game department, submit programs or projects for fish restoration in either of the following two ways:

(1) The State shall prepare and submit to the Secretary of the Interior a comprehensive fish and wildlife resource management plan which shall insure the perpetuation of these resources for the economic, scientific, and recreational enrichment of the people. Such plan shall be for a period of not less than five years and be based on projections of desires and needs of the people for a period of not less than fifteen years. It shall include provisions for updat-

ing at intervals of not more than three years and be provided in a format as may be required by the Secretary of the Interior. If the Secretary of the Interior finds that such plans conform to standards established by him and approves such plans, he may finance up to 75 per centum of the cost of implementing segments of those plans meeting the purposes of this Act from funds apportioned under this Act upon this approval of an annual agreement submitted to him.

(2) A State may elect to avail itself of the benefits of this Act by its State fish and game department submitting to the Secretary of the Interior full and detailed statements of any fish restoration and management project proposed for that State. If the Secretary of the Interior finds that such project meets with the standards set by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require. If the Secretary of the interior approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately set aside so much of said appropriation as represents the share of the United States payable under this Act on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof.

The Secretary of the Interior shall approve only such comprehensive plans or projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be applied only to such approved comprehensive fishery plan or projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this Act. No payment of any money apportioned under this Act shall be made on any comprehensive fishery plan or project until an agreement to participate therein shall have been submitted to and approved by the Secretary of the Interior.

(b) If the State elects to avail itself of the benefits of this Act by preparing a comprehensive fish and wildlife plan under option (1) of subsection (a) of this section, then the term "project" may be defined for the purpose of this Act as a fishery program, all other definitions notwithstanding.

(c) Administrative costs in the form of overhead or indirect costs for services provided by State central service activities outside of the State fish and game department charged against programs or projects supported by funds made available under this Act shall not exceed in any one fiscal year 3 per centum of the annual apportionment to the State.

(d) The Secretary of the Interior may enter into agreements to finance up to 75 per centum of the initial costs of the acquisition of lands or interests therein and the construction of structures or facilities from appropriations currently available for the purposes of this Act; and to agree to finance up to 75 per centum of the remaining costs over such a period of time as the Secretary may consider necessary. The liability of the United States in any such agreement is contingent upon the continued availability of funds for the purposes of this Act.

SEC. 7. [16 U.S.C. 777f] (a) When the Secretary of the Interior shall find that any project approved by him has been completed or,

if involving research relating to fish, is being conducted, in compliance with said plans and specifications, he shall cause to be paid to the proper authority of said State the amount set aside for said project. The Secretary of the Interior may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States' pro rata share of the project in conformity with said plans and specifications. If a State has elected to avail itself of the benefits of this Act by preparing a comprehensive fish and wildlife plan as provided for under option (1) of subsection (a) of section 6 of this Act, and this plan has been approved by the Secretary of the Interior, then the Secretary may, in his discretion, and under such rules and regulations, as he may prescribe, advance funds to the State for financing the United States' pro rata share agreed upon between the State fish and game department and the Secretary.

(b) Any construction work and labor in each State shall be performed in accordance with its laws and under the direct supervision of the State fish and game department, subject to the inspection and approval of the Secretary of the Interior and in accordance with the rules and regulations made pursuant to this Act. The Secretary of the Interior and the State fish and game department of each State may jointly determine at what times and in what amounts payments shall be made under this Act. Such payments shall be made against the said appropriation to such official or officials, or depository, as may be designated by the State fish and game department and authorized under the laws of the State to receive public funds of the State.

SEC. 8. [16 U.S.C. 777g] (a) To maintain fish-restoration and management projects established under the provisions of this Act shall be the duty of the States according to their respective laws. Beginning July 1, 1953, maintenance of projects heretofore completed under the provisions of this Act may be considered as projects under this Act. Title to any real or personal property acquired by any State, and to improvements placed on State-owned lands through the use of funds paid to the State under the provisions of this Act, shall be vested in such State.

(b)(1) Each State shall allocate 15 percent of the funds apportioned to it for each fiscal year under section 4 of this Act for the payment of up to 75 per centum of the costs of the acquisition, development, renovation, or improvement of facilities (and auxiliary facilities necessary to insure the safe use of such facilities) that create, or add to, public access to the waters of the United States to improve the suitability of such waters for recreational boating purposes. Notwithstanding this provision, States within a United States Fish and Wildlife Service Administrative Region may allocate more or less than 15 percent in a fiscal year, provided that the total regional allocation averages 15 percent over a 5 year period.

(2) So much of the funds that are allocated by a State under paragraph (1) in any fiscal year that remained unexpended or unobligated at the close of such year are authorized to be made available for the purposes described in paragraph (1) during the succeeding four fiscal years, but any portion of such funds that remain unexpended or unobligated at the close of such period are author-

ized to be made available for expenditure by the Secretary of the Interior to supplement the 58.012 percent of the balance of each annual appropriation to be apportioned among the States under section 4(c).

(c) Each State may use not to exceed 15 percent of the funds apportioned to it under section 4 of this Act to pay up to 75 percent of the costs of an aquatic resource education and outreach and communications program for the purpose of increasing public understanding of the Nation's water resources and associated aquatic life forms. The non-Federal share of such costs may not be derived from other Federal grant programs. The Secretary shall issue not later than the one hundred and twentieth day after the effective date of this subsection such regulations as he deems advisable regarding the criteria for such programs.

(d) NATIONAL OUTREACH AND COMMUNICATIONS PROGRAM.—

(1) IMPLEMENTATION.—Within 1 year after the date of enactment of the Sportfishing and Boating Safety Act of 1998, the Secretary of the Interior shall develop and implement, in cooperation and consultation with the Sport Fishing and Boating Partnership Council, a national plan for outreach and communications.

(A) guidance, including guidance on the development of an administrative process and funding priorities, for outreach and communications programs; and

(B) for the establishment of a national program.

(3) SECRETARY MAY MATCH OR FUND PROGRAMS.—Under the plan, the Secretary may obligate amounts available under subsection (a)(5) or subsection (b) of section 4 of this Act—

(A) to make grants to any State or private entity to pay all or any portion of the cost of carrying out any outreach and communications program under the plan; or

(B) to fund contracts with States or private entities to carry out such a program.

(4) REVIEW.—The plan shall be reviewed periodically, but not less frequently than once every 3 years.

(e) STATE OUTREACH AND COMMUNICATIONS PROGRAM.—Within 12 months after the completion of the national plan under subsection (d)(1), a State shall develop a plan for an outreach and communications program and submit it to the Secretary. In developing the plan, a State shall—

(1) review the national plan developed under subsection (d);

(2) consult with anglers, boaters, the sportfishing and boating industries, and the general public; and

(3) establish priorities for the State outreach and communications program proposed for implementation.

(f) PUMPOUT STATIONS AND WASTE RECEPTION FACILITIES.—Amounts apportioned to States under section 4 of this Act may be used to pay not more than 75 percent of the costs of constructing, renovating, operating, or maintaining pumpout stations and waste reception facilities (as those terms are defined in the Clean Vessel Act of 1992).

(g) SURVEYS.—

(1) NATIONAL FRAMEWORK.—Within 6 months after the date of enactment of the Sportfishing and Boating Safety Act of 1998, the Secretary, in consultation with the States, shall adopt a national framework for a public boat access needs assessment which may be used by States to conduct surveys to determine the adequacy, number, location, and quality of facilities providing access to recreational waters for all sizes of recreational boats.

(2) STATE SURVEYS.—Within 18 months after such date of enactment, each State that agrees to conduct a public boat access needs survey following the recommended national framework shall report its findings to the Secretary for use in the development of a comprehensive national assessment of recreational boat access needs and facilities.

(3) EXCEPTION.—Paragraph (2) does not apply to a State if, within 18 months after such date of enactment, the Secretary certifies that the State has developed and is implementing a plan that ensures there are and will be public boat access adequate to meet the needs of recreational boaters on its waters.

(4) FUNDING.—A State that conducts a public boat access needs survey under paragraph (2) may fund the costs of conducting that assessment out of amounts allocated to it as funding dedicated to motorboat access to recreational waters under subsection (b)(1) of this section.
