MANAGEMENT ASSISTANCE TEAM

2020 YEAR IN REVIEW
MANAGEMENT ASSISTANCE TEAM

CHARGE

The Management Assistance Team (MAT) work is funded by a Multistate Conservation Grant. MAT is charged with increasing the leadership capacity and agency effectiveness within state fish and wildlife agencies and the conservation community through leadership and organizational development initiatives, training, consulting, and support of the National Conservation Leadership Institute (NCLI).

VISION

MAT’s vision to “further the conservation goals of state fish and wildlife agencies through organizational and leadership development of agency staff at all levels” is achieved by MAT’s products and services which concentrate on agency administration—the people part of the equation.
In 2020, MAT was able to respond to the urgent need for engagement, connectivity, and continued professional development, even in the midst of a pandemic, by ...

NATIONAL CONSERVATION LEADERSHIP INSTITUTE

PURPOSE

The National Conservation Leadership Institute (NCLI) was established in 2005 to help develop future conservation leadership to address the daunting challenges facing our ever-changing world...socially, politically, and—yes—environmentally.

Across conservation we are facing difficult questions of sustainability, organizational relevancy, funding shifts, and climate change. At the heart of all of these, we find ourselves wrestling not only with the science-based issues but also the increasingly complex human element.
This past year brought on even greater challenges with the onset of Covid-19 and the dramatic shifts to ‘how we do business’ in our community.
